WHY BUY NEW WHEN YOU CAN RE-NEW FOR A WHOLE LOT LESS?

Corrugated Gear and Services Inc. has performed several complete restoration/upgrades on the Martin 616 Mini-line with many improvements that have placed these machines back in service in better than new condition...AND at a fraction of the cost of a new machine!

WHAT ABOUT REPLACEMENT PARTS?

When it comes to replacement parts for your "Mini", we've got you covered! We carry a full line of quality replacement parts with most being in stock.

With our team of in-house rebuild technicians, electronic specialists and engineering services working together, we're able to provide many computerized upgrades and safety features that were unheard of when these machines were designed. Give us a call today, and let us show you how we can breathe new life into your old machine!
